EXPLANATIONS.

1. When places other than Chelsea or Massachusetts are named in the original records, they are given in the printed copy.

2. In all items from the records the original spelling of the names is given, and any additions made to the spelling of the record are enclosed in brackets.

3. The various spellings of a name should be examined, as items about the same family or individual may be found under different spellings.

4. The birth of a married woman is recorded under her maiden name when it is known, but if the maiden name is unknown the entry appears under the husband's name, with a dash enclosed in brackets, *i.e.* [—], to signify that the maiden name is not known.

5. Marriages and intentions are printed under the name of both parties. When both the marriage and intention are recorded, only the marriage record is printed, and the date of the intention is not given except when needed to make more clear the date of the marriage. When the marriage appears without the intention recorded it is designated with an asterisk.

6. Additional information which does not appear in the original record, *i.e.*, any difference shown in other entries of the record, is enclosed in parentheses.
